Tax-Free Fixed Rates (ISA) - Please see our website for further details.							

1. Gross rate is the contractual rate of interest payable without tax taken off. AER stands for Annual Equivalent Rate and illustrates what the rate would be if interest was paid and compounded each year [as every advert for a savings product which quotes an interest rate will contain an AER, you will be able to compare more easily what return you can expect from your savings over time]. Rate of interest payable depends on individual circumstances and may be subject to change in the future.
2. The tax-free rate is the contractual rate of interest payable where interest is exempt from income tax. Tax treatment depends on individual circumstances and may be subject to change in future.
